

SAURAV KUMAR

FULL STACK WEB DEVELOPER

SUMMARY

Full Stack Web Developer with hands-on experience building production-grade web applications using Next.js, TypeScript, React.js, and MongoDB. Specialized in secure authentication systems (NextAuth, OTP-based 2FA), REST API development, and scalable CMS architecture. Delivered freelance projects that reduced client infrastructure costs and improved content workflows. Currently pursuing MCA while actively building and shipping real-world products.

EXPERIENCE

Freelance Full Stack Web Developer

08/2025 - Present

Self-Employed | Remote, New Delhi

- Engineered a hybrid-cloud portfolio and bespoke CMS using Next.js 16, TypeScript, and Tailwind CSS, routing DNS to Vercel to completely eliminate the client's VPS hosting costs.
- Built a secure admin dashboard featuring a TipTap rich-text editor and Cloudinary integration, enabling 100% no-code content management and automated image optimization.
- Integrated the Resend API to replace slow SMTP handshakes, powering instant contact form submissions, simultaneous MongoDB data logging, and one-click newsletter broadcasts.
- Fortified application security by implementing NextAuth with cryptographically hashed OTP 2-Factor Authentication and automated 5-minute TTL self-destruction.

WNS (Part of Capgemini)

Full-time | Gurugram, Haryana, India · Hybrid

Senior Associate - RNA
Associate Researcher

06/2026 - Present

12/2025 - 06/2026

PROJECTS

RoyallInvites | Personalized Cinematic Wedding Invitations

2026

Next.js 16 · TypeScript · Tailwind CSS · Framer Motion · MongoDB Atlas · NextAuth.js · Cloudinary

- Built a full-stack SaaS platform that replaces static PDF/image wedding invitations with personalized, cinematic web experiences, including an interactive wax-seal opening animation, background audio, and 4+ visual templates.
- Engineered a stateless, encoded guest-link system that renders a personalized greeting and message per guest at runtime, avoiding a database record for every recipient while keeping the platform lightweight.
- Developed a self-serve host dashboard for multi-ceremony wedding timelines (Haldi, Mehendi, Sangeet, etc.) with direct Google Maps venue navigation and one-click, pre-formatted WhatsApp invitation sharing.
- Added client-side image compression before Cloudinary upload and automated cloud media cleanup on image replacement/deletion to prevent orphaned files and reduce storage overhead.

Impact: Live, production SaaS product used to invite real wedding guests; built and shipped end-to-end as an independent, AI-assisted full-stack build.

Senior Data Analyst Portfolio & Custom CMS

Client Project · 12/2025

Next.js · TypeScript · Tailwind CSS · shadcn/ui · MongoDB · NextAuth.js · TipTap · Cloudinary · Resend API

- Delivered a professional portfolio and a bespoke "Digital Command Center" admin panel for a Senior Data Analyst client to publish case studies, blogs, and a downloadable resume without writing code.
- Designed a hybrid-cloud architecture that kept the client's existing Hostinger domain/email while routing web traffic to Vercel, completely eliminating the need for a paid VPS.
- Integrated a TipTap "MS Word-like" rich-text editor with image alignment and a draft-mode workflow, plus Cloudinary-powered image storage and optimization, for fully self-serve content publishing.
- Built a high-speed, triple-action contact form (Resend API) that simultaneously logs leads to MongoDB, alerts the admin, and auto-confirms the visitor, alongside a message inbox with read/unread tracking.
- Secured the platform with password + hashed, auto-expiring OTP 2-factor authentication, ensuring login codes stay useless even in the event of a database leak.

Impact: \$0 recurring hosting cost vs. a paid VPS, 100% no-code content management for the client, and a one-click newsletter broadcast on every new publish.

EDUCATION

Master of Computer Applications (MCA)

2026 - 2028

Indira Gandhi National Open University (IGNOU), New Delhi

Bachelor of Computer Applications (BCA)

2020 - 2023

Indira Gandhi National Open University (IGNOU), New Delhi | Graduated with 62%

KEY ACHIEVEMENTS

Competitive Exams

Cleared 13 national-level competitive examinations, including UPSC CDS, AFCAT, Navy SSR, SSC GD, CAPF AC (Paper 1), and SSC CGL (Prelims).

SSB Interviews

Attended multiple SSB interviews through to the final stage, demonstrating high-level leadership, resilience, and analytical problem-solving under pressure.

Content Creation

Founded 'The Self Study Ranker' YouTube channel, scripting and editing comprehensive educational tutorials for various competitive exams.

SKILLS

Frontend: Next.js (App Router), React.js, TypeScript, Tailwind CSS, Framer Motion

Backend & DB: MongoDB, REST APIs, NextAuth.js (Auth.js)

Tools: Vercel, Git, GitHub, SEO, Cloudinary, Resend API
